## SUMMARY

---

Passionate and dedicated MERN Stack Developer with over 1 year of hands-on experience in building and maintaining responsive, user-centric web applications. Proficient in leveraging the MERN stack (MongoDB, Express.js, React.js, Node.js) to create scalable and efficient solutions. Strong understanding of front-end and back-end development, coupled with expertise in RESTful API design, database management, and modern web technologies. Adept at collaborating with cross-functional teams to deliver high-quality software products. Eager to contribute to innovative projects and continuously improve skills in a fast-paced development environment.

## EDUCATION

---

### Sagar Institute of Research and Technology, Bhopal (M.P.)

B-Tech/B.E., Electronics/Telecommunication , 2020-2024

CGPA: 8.00

## EXPERIENCE

---

### MERN STACK DEVELOPER

Delta 360 Services Pvt Ltd

June 2023 – Currently

- Working as a MERN Stack Developer utilizing technologies such as React.js, JavaScript, and Node.js.
- Performing CRUD operations, developing the frontend, and creating reusable components that can be imported and utilized across the project.
- Integrated third-party services and APIs, including payment gateways and social authentication, using Express.js middleware to enhance application functionality and user engagement.
- Collaborated with cross-functional teams to gather requirements, design, and implement scalable and responsive web applications.

## INTERNSHIP

---

### MERN STACK DEVELOPER

Delta 360 Services Pvt Ltd

January 2023 – June 2023

1. Built a full-featured e-commerce platform where users can browse products, add them to the cart, and complete purchases using a secure payment gateway. Admins have the ability to manage products, view orders, and perform CRUD operations.
2. Developed a social media application where users can create profiles, follow/unfollow other users, create posts, like, comment, and share content. Real-time notifications and chat functionality are also included.

## PERSONAL PROJECTS

---

### Hired Job Portal Web Application

Developed a fully functional job portal web application that allows job creators to post job listings and candidates to apply for jobs, utilizing a modern tech stack including React with Vite, React Hooks, Supabase, and Clerk for authentication and many more. The application was designed with a focus on user-friendly interfaces, real-time data handling, and efficient state management. It is a full Stack Web Application.

### Chit-Chat

It is a chatting app that contain the features like end-to-end encryption for security, AI-powered smart replies, voice and video calling with screen sharing, customizable chat rooms and themes, integrated task and event management, offline messaging with synchronization, real-time language translation, advanced search and filtering, voice messaging with transcription, self-destructing messages and secret chats, custom bots and automation, and real-time file collaboration.
